PROFESSIONAL SUMMARY

Mobile App Developer and Computer Science and Engineering undergraduate BTech specializing in Android and iOS cross-platform app development with React Native, Expo and JavaScript. Designed and delivered three apps for freelance clients (food pre-ordering with meal subscriptions, shop billing with emailed receipts, and gym workout habit tracking) using React Native, Expo and Supabase. Completed internships in mobile app development and web development. Skilled in REST API integration, Supabase, Firebase and PostgreSQL backends, Django, and Figma-to-UI implementation.

TECHNICAL SKILLS

Programming Language: JavaScript (ES6+), Python, SQL

Mobile App Development: React Native, Expo

Frontend Development: HTML5, CSS3

Backend Development: Django, REST APIs

Databases: PostgreSQL, Supabase, Firebase

Developer Tools: Git, GitHub, VS Code

EXPERIENCE

Freelance Mobile App Developer **Remote**

Self-Employed | React Native, Expo, Supabase

- **Food Pre-Ordering and Meal Subscription App:** Designed and built an app that lets customers pre-book meals for a chosen pickup time slot and subscribe to recurring daily meal plans, so orders reach the kitchen before pickup.
- **Digital Shop Billing App:** Developed an app where staff add items, auto-generate bills and email digital receipts to customers, replacing manual billing.
- **Daily Gym Workout Habit Tracker:** Built an app for logging daily gym workouts and tracking consistency over time.
- Managed each project end to end: gathered client requirements, designed the UI, implemented features in React Native with Expo, and integrated Supabase for backend data storage.

Mobile App Development Intern **Jul 2025 – Aug 2025**

CodSoft | Remote

- Built cross-platform React Native apps with reusable UI components and screens optimized for performance and usability.
- Integrated REST APIs and backend services into app workflows, handling data fetching and rendering for dynamic features.
- Debugged and resolved application issues, improving app stability, efficiency and overall user experience.

Web Development Intern **Jun 2025 – Jul 2025**

YHills | Remote

- Built and maintained responsive web pages with HTML5, CSS3 and JavaScript for mobile, tablet and desktop screens.
- Improved UI/UX with structured, mobile-first layouts and collaborated with the team to meet project deadlines.

PROJECTS

Finverse AI – Smart Expense Tracker *React Native, REST APIs*

- Built a cross-platform finance app with expense entry, categorization, budgeting and spending analysis screens.
- Integrated backend services through REST APIs to store and retrieve expense data behind a clean, user-focused interface.

Smart Agriculture App *React Native, Supabase, REST APIs*

- Built an app delivering real-time agricultural data to farmers, combining live API data with secure Supabase storage.
- Designed a farmer-friendly UI with clear layouts and simple navigation for users with limited technical experience.

HSE Safety App – BPUT Hackathon *React Native*

- Built a workplace safety app with incident reporting, in-app safety guidelines and quick reporting flows for field workers.

EDUCATION

B.Tech, Computer Science and Engineering

Synergy Institute of Engineering and Technology, Dhenkanal, Odisha | 2023 – 2027 (Expected)

Senior Secondary (CBSE), Science (PCM) with Information Technology

Kendriya Vidyalaya No. 1, Angul, Odisha | 2021 – 2023

ACHIEVEMENTS AND CERTIFICATIONS

- Secured a Top 6 team finish at the GIFT College Hackathon; ranked among the Top 30 in the Google Arcade Program.
- Contributed to open-source projects as a GirlScript Summer of Code (GSSoC) contributor.
- Certifications: Mobile App Development (CodSoft), Web Development (YHills), ChaiCode (Mobile Dev COHORT), Corizo.
